Description

Installing a Multishower can be one of the best investments you have made for a long time. There are several reasons for that:

Improved economy

The investment cost is recovered quickly by the savings you make after the installation.

A powerful environmental case

Reduced consumption is a strong and solid argument for companies that actively take measures to reduce their negative influence on the environment.

Calcium deposits do not develop

The design of the Multishower means that the nozzle is wide, which avoids

Contains fewer parts

Multishower contains fewer and more reliable parts, which gives it a considerably longer life than conventional showers.

Pleasant experience

Due to the unique quality Multishower gives a more pleasant shower experience than the conventional showers.

Five years of guarantee

Each Multishower has a five-year factory warranty.

A safe shower – no risk for legionella bacteria

The spreading of the legionella bacteria is increased by showers mixing water with air. The FTL Water Saving

Technology™ does not include air. As a result many hospitals are now using the Multishower.
