Description

Features

- 1.The creative reflector design can efficiently raise the lumen over 30%;
2. Easy installation,suitable a range of pole from 60mm to 90mm diameter;
3. Uses new-generation, high quality LiFePO4 batteries, and unique TWIN battery group arrangement to realize the goal of 8-10 years' maintenance free;
4. The unique design of thief proof , common tools can not remove it, 0 stealing after installation.

Specification

Led power	10W
Solar panel	25W
Lithium-ion LiFePO4	10.4AHS
Charging by sun	6-10H
PIR motion sensor	12m remote Panasonic PIR motion sensor
Lamp luminous flux	Full power mode 1200lm
Lamp luminous flux	Power saving mode 400lm
Light distribution	Round type Round/ Rectangle
	120 Round: 120
	Rectangle: 120x60
Color temperature	5000-6000k
Light thresholds	30lux
Working time	Full power mode: ?10H
	Power saving mode: ?30H
Light thresholds	-20?--+45?
Operating temperature	Charging mode: 0?--+60?
	Discharging mode: -20?--+60?
IP grade	IP65
Suggested installing height	Installation 4-6m
Suggested installing space	13-18m
